Dear Sir:

Re: U. S. Patent Application Serial No.: 10/808,709

Filed: 16 Mar 2004

Inventor (s): Dr. Yuke Wang et.al.

Title: Device For and Method of Generating Pseudo-Random Sequence Uniformly  
 Distributed Over Any Range

Prosecuted by: (X) Government, ( ) Contractor, ( ) Unknown Party

The above identified application in which the Government has a property interest, was filed without national security information classification markings. We now request that a secrecy order be issued.

This is to notify you that the above-identified application has been examined under the provisions of 35 U.S.C. 181 by the National Security Agency, the interested Government Agency, and that the publication or disclosure of the invention would be detrimental to the national security. We request that you order that the invention be kept secret for such period as the national interest requires.

We further request that you issue the following Secrecy Order:

( ) Secrecy Order and Permit for Foreign Filing in Certain Countries  
 ( ) ECCN Reference  
 ( ) ITAR Reference

(X) Secrecy Order and Permit for Disclosing Classified Information  
 Level of Protection or Classification CONFIDENTIAL

( ) Secrecy Order - It is further requested that this Secrecy Order issue with  
 (X) Permit A (PTO 299)  
 ( ) No Permit

Sincerely,

ROBERT D. MORELLI  
 Acting Associate General Counsel  
 Intellectual Property and Technology
